

Integrated system policy

EBCC Sp. z o.o. in Wrocław is the manufacturer of metal components for cars and trucks. Our key competences are gravity casting and precision machining.

The basis of our existence is to satisfy our customers by providing them with products that meet their requirements, at a satisfactory price and on agreed dates. Focusing on quality, the environment, safety of manufactured products and care for the natural environment is an important element of the general strategy of the company.

We achieve our strategic goal through:

- ✓ Professional Customer Service;
- ✓ The commitment of experienced and competent Employees;
- ✓ Undertaking activities related to the development of the company, its continuous improvement, in particular by maintaining the effectiveness of the integrated management system, in accordance with the requirements of the standards: IATF 16949:2016, EN ISO 14001:2015, PN-N-18001:2004 and ISO 50001:2018 aimed at implementing ISO 45001:2018
- ✓ Meeting the requirements of legal regulations and other requirements concerning the company, its environmental aspects and threats to product and Employee safety;
- ✓ Preventing accidents at work, occupational diseases and potentially fatal accidents and striving for continuous improvement in occupational health and safety;
- ✓ Improving qualifications and taking into account the role of Employees and their involvement in health and safety activities;
- ✓ Using modern, environmentally friendly manufacturing processes;
- ✓ Ensuring product safety from the first stages of development, monitoring its level in serial production, and implementing actions to improve it.

We declare that the INTEGRATED POLICY defined in this way is known and understood by all employees of EBCC Sp. z o.o. and that each Employee knows their contribution to the implementation of this policy.
